1. The preliminary amendment filed October 30, 2006, which cancels claims 1-33 and adds

claims 34-67, has been entered.

Claims 34-67 are pending.

2. Claims 34-67 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with

the written description requirement. The claims contain subject matter which was not described

in the specification in such a way as to reasonably convey to one skilled in the relevant art that

the inventor(s), at the time the application was filed, had possession of the claimed invention.

The remarks accompanying the preliminary amendment filed October 30, 2006 do not

indicate where support is found in the original disclosure for the limitations of the new/present

claims.

The present claims define/require a subset of organometallic complexes in which a

diphenylquinoxaline ligand, having thirteen possible positions for substitution, is substituted at

eight of those positions with a substituent selected from the Markush group set forth in present

independent claims 34, 42, 50 and 59, and the other five positions are unsubstituted (i.e. each of

the five R variables that is hydrogen per the present independent claims). The presently required

substitution pattern is not explicitly disclosed in the application as originally filed, and no

specific examples of organometallic complexes within the scope of the present claims are set

forth in the original disclosure. Accordingly, it is the examiner's position that the present claims

are not supported by the original disclosure.

3. Provided that applicant can demonstrate that the organometallic complexes as defined in

present independent claims 34, 42, 50 and 59 are supported by the application as originally filed,

present claims 34-67 will be allowable. The prior art does not disclose or suggest complexes as

required by the present claims wherein each of R⁷, R⁹, R¹⁰, R¹², and R¹⁴ is hydrogen, while each

of the other eight R variables is a substituent selected from the Markush group set forth in the

present independent claims.

4. Any inquiry concerning this communication should be directed to Marie R. Yamnitzky at telephone number (571) 272-1531. The examiner works a flexible schedule but can generally be

reached at this number from 7:00 a.m. to 3:30 p.m. Monday-Friday.

The current fax number for all official faxes is (571) 273-8300. (Unofficial faxes to be sent

directly to examiner Yamnitzky can be sent to (571) 273-1531.)
